TRANSMITTAL

Sir:

Mr. Lewis has informed us, with respect to our Petition of 08 July 2002, that he is unable to read the sequence listing on the duplicate CD ROMs that were filed previously, so we are resubmitting the two CD ROMs, along with a floppy diskette backup.

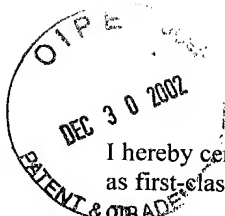

No new matter has been added.

Respectfully submitted,

Barry L. Davison

STATEMENT UNDER 37 CFR §1.821(f)

Sir:

The Sequence Listing for the *continuation* patent application referenced above is resubmitted in duplicate on two CD-ROMs, and on a diskette for back-up. I hereby state that the data on the duplicate CD-ROMs and on the back-up diskette are identical. No new matter has been added. The present Sequence Listing is as originally filed, and contains the identical sequences that were filed in the original *parent* patent application as Figures 12-57. Again, Figures 12-57 were not submitted with the continuation filing because they are redundant with the submitted Sequence Listing, and were of improper form for sequence presentation.

Respectfully submitted,

Barry L. Davison
